venti
mirrors - glass

Business services

GLASS IN CONSTRUCTION INDUSTRY

We provide on size glass cutting services. We offer lacobel lacquered glass, tempered glass, safety glass, laminated glass of various thickness, as well as silver, graphite, and venetian mirrors.

DRILLING

Thanks to the professional drilling machine, we can drill holes in any type of glass, up to 19mm thick, with a hole diameter of 4mm - 88mm with an accuracy of 0.1mm.

POLISHING

We perform glass edge polishing of various thicknesses. We offer polishing finish in the c-kant matt system, trapezoidal polished and trapezoidal matt.

SANDBLASTING

We use different types of sandblasters, which gives us the opportunity to sandblast the entire surface of the glass, regular and irregular patterns, logos, pictograms, or any graphic symbols.

LASERING

We use fiber laser technology which gives us vast possibilities of marking patterns with precision reaching up to 0.001mm. The working range of the device is 300mm x 300mm.

Venti

has been operating on the interior design market for over **15 years**.

This many years of experience allows us to create products that meet the needs of our customers, no matter how complex they are.

We have professional machines for processing glass and mirrors, thanks to which we can provide services, such as **cutting, drilling, sandblasting, polishing or lasering** various types of glass, at the customer's individual request.

We design and manufacture all of our mirrors ourselves.

As equipment we use various materials, such as: touch switches, LCD stations, and as decoration, sand-blasted patterns, and various types of frames.

For lighting, we use energy-saving systems that emit white, bright, non-glare **LED light**.

The criteria we follow in our daily work are **quality, innovation and aesthetics** - their consistent inclusion in the company's business strategy has allowed us to create a wide range of products.

When preparing new prototypes, we are inspired by the latest trends in the interior design market.

Our passion and commitment made us successfully sell mirrors **all over the country and abroad**.

We constantly modernize our company, so that the services we offer meet the expectations of our customers to the highest possible degree.
